ORAL AND MAXILLOFACIAL SURGERY

Oral and maxillofacial surgery is a specialty which includes treating many diseases, injuries and defects of the mouth, teeth and jaws. Surgeons may also be called on to consult with cases of obstructive sleep apnea, facial pain and infection, biopsies and removal of lesions. These specialists have the expertise to treat many functional and esthetic conditions.

We are pleased to have promoted your honor of being named to the 2025 *New York Super Doctors®* list.
