

New York Oral and Maxillofacial Surgeon Dr. Mark Stein Announces New Office Location in NYC

Mark Stein, D.D.S., M.D. of New York Oral & Maxillofacial Surgery is moving his practice to a beautiful new location on the corner of 5th Avenue and E61st Street in New York City.

New York, NY, Feb. 28, 2012 (GLOBE NEWSWIRE) -- In the spirit of starting fresh for the new year, Dr. Mark Stein recently moved his dental practice, New York Oral & Maxillofacial Surgery, to the corner of 5th Avenue and E61st Street in New York City. Dr. Stein began taking appointments at his new office location late last December where patients can now enjoy the same exemplary service in the luxury of his new practice!

New York Oral & Maxillofacial Surgery's new 5th Avenue location provides the same comprehensive dental services as its previous location, including dental implants, bone grafting, sinus lift, wisdom teeth extractions, facial trauma reconstruction, orthognathic surgery, Teeth in an Hour(TM) in New York, Botox and Restylane, and many other cosmetic and restorative surgical procedures including the Pillar procedure for the treatment of snoring. The skills and experience Dr. Stein brings to each procedure ensures that patients receive the best care and results possible. New York Oral & Maxillofacial Surgery's dental implant center has performed over 5,000 dental implants in NY and is one of the leading practices in dentistry, performing the most advanced techniques in bone grafting in NYC.

Patients can receive their oral or maxillofacial surgery at Dr. Stein's new office location which is outfitted with the latest, cutting-edge equipment to ensure patient safety, comfort, and satisfaction. New York Oral & Maxillofacial Surgery is one of the only practices in New York City to have a Kodak Cone Beam CT Scan in the office. This allows Dr. Stein to be able to diagnose and treatment plan difficult dental implant cases without having to refer the patient elsewhere for diagnostic imaging. The doctors and staff at New York Oral & Maxillofacial Surgery are committed to remaining in the forefront of technology. Patients can feel comfortable knowing that the procedures and services they will receive with Dr. Stein are the least invasive, most current procedures and services available in dentistry and Oral Surgery.

The search for an oral and maxillofacial surgeon can be a stressful and difficult time. Patients are often in pain from impacted teeth in need of extraction, in distress from an accident that requires facial reconstruction, or embarrassed by the appearance of their smile. Dr. Mark Stein and the staff at New York Oral and Maxillofacial Surgery understand what patients may be going through and are sympathetic to patients' needs. Dr. Mark Stein offers IV Sedation as part of his services, so patients can rest comfortably while the most complicated of procedures are performed and wake up feeling rested and pain free. Discover the comfort, safety, and medical precision that Dr. Stein has to offer by visiting his newly opened New York City office location. The views of Central Park from the treatment rooms will put you at ease and comfort.

Mark Stein, D.D.S., M.D. and his staff encourage patients to express any questions you may have about our new location, any of the services and procedures we offer, or scheduling an appointment. You can contact us at our new New York office at 212.888.4760, or you may make an appointment online for a personal consultation with Dr. Stein.

About Mark Stein, D.D.S., M.D.
